Autonomy of 800 to 400,000 hours with 2 AAA batteries

Magnification X1

Lens with 28mm aperture

Impact correction per click: 1/2 MoA (1.45 cm at 100 m)

Machined from 6061-T6 aluminum with matte black coating

Waterproof to IP67 standards, fogproof and shockproof

Supplied with high and low base

- Drift adjustment range: 160 MoA
- Elevation adjustment range: 120 MoA
- Maximum caliber: .338 Win Mag

The SIGHTMARK Volta Solar uses solar energy through its solar panel located on top of the red dot. Combined with battery power, it can be used even in low light and at night (Low Light / No Light).

The red dot lights up immediately as soon as the solar panel receives light.

Delivered with two types of base, it allows to adapt the red dot to Magnifier, to metal sights or according to the profile of the weapon used (AR platform, AK)
